Wigmore IT Group

Success Delivered

Retain & grow existing customers, with our Customer Success strategies

We believe that Customer Success is not just a team or function, it's a company-wide initiative. Every department plays a role in the mission of Customer Success. Our solutions share your customer insights across your company to ensure every employee has full customer context and the means to drive great outcomes and experiences.

News & Announcements

Wigmore Achieves World Class Net Promoter Score® of 84

Strategic Design

Customer Success the “Wigmore Way”, is about developing your company’s “Breakout” strategy. Move beyond that monthly cycle of two steps forward, one step back. We use a combination of our extensive experience in the Cloud, leading software tools and industry best practice, to design a bespoke customer success strategy for your company.

Gainsight Services

As your organisation scales, your customer success team will need the right tools to function successfully. Using our data driven approach, we’ve deployed the class leading customer success solution to numerous companies around the world.

Administration & Operation

Optimise, extend, and grow your Customer Success organisation.

We can partner with and execute your existing customer strategies or help you create a strong value driven process that delivers success. We can operate across all of your customer base or a subset.

Utilise us across all customer interactions or just at key points in their lifecycle, such as On-boarding.

Many of our programs include the use of our team of Customer Success Managers who will extend your customer coverage by reaching out to your end users, complementing your internal resources and strategy as a critical part driving results for your organisation.

Our Customers and Partners

Transform how you drive

revenue and engage with customers

For decades, businesses have used data to drive customer acquisition. Now, we’re changing the game for those businesses, by helping them capitalise on the power of their data, to manage at-risk customers and grow the lifetime value of healthy ones. Make the difference and contact Wigmore IT Group to see how we can help you.

Project Success

Project success and customer satisfaction are integral to everything we do at Wigmore. We delight our clients, through delivering solutions that drive real and tangible business benefits. Our ambition is that each new client engagement is the beginning of a long-term business relationship.

Doing what's right. Eschewing short-term rewards for long term success. Acting with honesty and showing the utmost respect to our clients, our partners and our colleagues.

Staff fulfilment and development

We strive to hire the best talent with the right attitude. We fulfil our promise to our people, by providing constant opportunities for growth through training, certification, innovative customer engagements, continued company growth and a nurturing, mentored environment.

Positive contribution to our communities

Wigmore IT Group operates an “integrated philanthropy” model. It is built into the company from the very start. Otherwise known as the 1-1-1 model, we have pledged 1% of the company’s equity, 1% of our product or service and 1% of employee time to giving back to our communities. Our team members are actively encouraged to engage in any such community initiatives that they are passionate about.

Wigmore Achieves World Class Net Promoter Score® of 84

In our Gainsight professional services projects, we’ve achieved a world class Net Promoter Score (NPS) of 84 in 2023. This score is a testament to the satisfaction and loyalty of our clients and we’re honoured by the trust and positive feedback we’ve received.

Mark Deegan, our CEO, has highlighted our approach to success:

“We are delighted our customers have given us a Net Promoter Score of 84, well above ‘World-Class’.

At Wigmore, we’re constantly evolving to better serve our customers. In January 2023, we introduced a new way of delivering our services -WAVE (Wigmore Accelerated Value Engagement), an outcomes-based, data driven methodology. WAVE is the result of the experience and best practices we’ve gained from hundreds of Gainsight implementations, and it’s making a significant impact. The bottom line is our

customers put their trust in us. We have an obligation to deliver”.

At Wigmore I.T., we are continuously striving to improve and provide even better experiences for our clients. Thank you to our clients and partners for being a part of this journey. We look forward to continuing to deliver excellence in customer onboarding and beyond.

Strategic Design

The Wigmore Way

There is no silver bullet for customer retention and growth. A successful strategy is about the iterative

progress gleaned from lots and lots of little things, which are done differently or just better. Thankfully, this can be broken down into the various functions below, but it also demands a cultural commitment within the entire company – usually starting with and driven by, the CEO.

Mapping Your Customer Lifecycle

From Sales to on-boarding handover, through to renewal and customer growth, we identify each stage of the customer journey. We will create a clear roadmap from customer acquisition to advocacy. We highlight critical inflection points along the way and define proactive calls to action. Together we will create a consistent and transparent process, which allows you to see where each of your customers sit on the customer advocacy curve.

Technology Planning

We examine your technology stack to see if your CS team has all of the information it requires to provide value to your customers and to your business. Is the business ready to take on new technology and if not what steps need to be taken before it can do so? Will it be able to scale with your business or become a bottleneck and restrict growth? The right technology investment will allow your team to work smarter delivering value to more customers more effectively

On-boarding Design

Too many customer relationships flounder on the rocks of a poor on-boarding experience. We examine your current process and work with you to design the optimal approach. Our unparalleled experience will help you design the correct on-boarding offerings which deliver a faster and more sustainable time to value for your customers.

Customer Personas

Do you understand who are the key stakeholders in your customer? Are you delivering what they want and more importantly what they need, to make your offering an integral part of their success? Are there others in the organisation that you should be engaging?

Communications planning

Are you communicating, with the right people, at the right time, with the right messages? Are your people “just checking in”, or, do your interactions drive value for your customers?

CS Team Structure

Does your current team have the ability to execute to plan?, (now and in your future plans). Do you have the structures to react appropriately, to an increase in the volume and value of customers? Do they have the skills required? How do you ensure they remain up to date? Can you prevent your CS team becoming another form of support?

Installed Base Segmentation

Too many organisations segment simply on current license value, splitting their installed base into High, Medium and Lower value customers. They assign high touch, mid touch and tech touch communications plans. Installed base segmentation is rarely that easy. For example, there may be many organisations that start at the lower end of the revenue pyramid, but have the potential to become very large customers. Your customer success team must have the tools to identify and deal appropriately, with these high potential customers.

Customer success administration & operations

Gainsight Admin as a Service

Is your organisation at a size where you are struggling to find the right resource to administer your Gainsight implementation? Alternatively have you reached a point where the sheer size and complexity of your processes require the reassurance of having a dedicated Gainsight expert on hand to deal with the day to day maintenance of your Gainsight environment?

Wigmore provides a service where you can effectively outsource these tasks, allowing your customer success organisation to focus on its core competencies and objectives, secure in the knowledge that your Gainsight engine is always tuned to perfection and ready to support your evolving needs. Find out More

Customer Success Operations as a Service

As Customer Success evolves and as the data we gather becomes larger and more complex, the ability to understand and recognise your customers inflection points can be diminished or lost. Too much data, not enough information. Too many tasks, not enough valuable outcomes.

Wigmore's team of Customer Success Data Analysts can help you find the trends and insights that are hidden in your data and recommend actionable activities, validated by our years of best practice experiences, but more importantly informed by your data. Unlock the power of your data to drive real business benefit not just customer success, but for your whole business. Find out More

From concept to launch – making your business website shine on any device.

I agree to Privacy Policy by submitting this form.

At SWOT Digital, we look after every aspect of your web design and ensure it performs brilliantly straight out of the starting block.

The result is not just a stunning looking website, but one that performs as well as it looks!

We believe that beauty is more than skin deep, that's why all our websites are designed with SEO incorporated from the foundations up, and speed of performance is considered at every step of the way.

Responsive Design For The Modern World

These days a website has to both look fantastic and work perfectly on any platform.

Gone are the days when the desktop computer was king when it came to browsing the internet. Today, more than half of all web traffic comes through mobile devices.

At SWOT Digital, all of our websites are optimised to work on any device so, no matter how your visitor is viewing your page, it looks and performs brilliantly.

What this translates to is a web page that is optimised to provide a user experience that drives up enquiries and sales, regardless of how it was accessed.

Contact us today to find out how a responsive website can help your business.

Speed Matters!

Speed is at the forefront of our design process. At every stage of the process, we design each element to ensure that your webpage loads like lightning!

This is great for the user experience, as fast load times keep all those short attention spans from heading off to the competition. But this is not the only reason speed matters!

Google now uses speed metrics that test how fast content loads. And faster load times equates to a higher page ranking!

Our specialised WordPress hosting and optimised design ensure that your web page will get an A-

rating on technical speed tests.

Contact us today to find out more about how putting some zoom into your website can be your fast-track to success.

Benefits Of Our Website Design

We are market leaders in innovative website design that is optimised to work in today's marketplace. Backed by years of experience at the cutting edge of web technology, our design team can build a website that not only looks fantastic but also incorporates the following benefits:

Fully responsive

All our websites perform on any platform or device, including PCs, phones, and tablets.

Speed is crucial to maintain visitor interest and Google rankings, our websites tick all the boxes when it comes to speed.

Out of the box, our websites are designed with Search Engine Optimisation in mind. Both the content and the layout are designed to be SEO friendly.

Don't Just Take Our Word For It!

We are as proud of our work as our clients are of their websites!

We work with clients of all sizes, from small company brochure sites to large eCommerce platforms and everything in between and are happy to share some of these designs and the methodology behind them with you.

Google Ads Management

New leads and more customers are just a click away with transparent campaigns & hands-on Google Ads Management.

I agree to Privacy Policy by submitting this form.

Google Ads can be incredibly effective. But without the right skill set needed to ensure success, a poorly orchestrated ad campaign can be a waste of valuable time & money.

Our expert and dedicated Google Ads team have years of experience in creating successful Google Ad campaigns. A fact recognised by our industry peers, as over the years, we have won a number of industry awards.

We are also certified Google partners helping to further ensure that each campaign we manage is created from the ground up to achieve maximised results.

Making Every Click Count

At SWOT Digital, we have been running successful Google Ads campaigns for nearly as long as

Google has.

Our expertise and experience gained over the years is evident in the success of our campaigns and our high levels of customer retention. Our team takes a hands-on approach to Google Ads Management and works closely with our clients to make every click count.

Our global customer base includes businesses of all sizes from many verticals both B2C and B2B. With budgets ranging from €10 to €2,000 per day, per we can provide you a tailored Google Ads Management solution that first meets your needs and then exceeds your expectations.

How Google Ads Management Can Benefit Your Business

Google Ads are an incredibly powerful business tool, and when ad campaigns are enhanced with highly effective Google ads management, the results can be stunning.

At SWOT Digital, our Google Ads Management team ensures that your business will reap the following benefits.

Instant results

Your business is instantly visible when people search for the product or service you are offering, showing as an advert on Google's search results pages.

Up and running fast

Start displaying relevant ads that drive traffic to your website in no time.

Highly targeted ads

Proper management ensures your ads will only be seen by the right demographic.

No click means no charge

You only pay when someone clicks on your ad and visits your site.

Transparent service

Our awesome monthly reports give you all the analytics you will ever need right at your fingertips. Full details on aspects like website sales, web form enquiries, telephone calls and more are all included.

Let's chat about your business

Contact us today to discover how our tailored services can take your online presence to the heights you've always imagined. Our customised packages mean that we have a solution for every business.

Send Message

I agree to Privacy Policy by submitting this form.

What Does Google Ads Management Include?

No two businesses are the same, and that's why we tailor our Google Ads Management solutions to fit your needs and facilitate you in reaching your goals.

The major areas that our tailored solution can include are:

Search Advertising Management

Geo targeting

Ongoing keyword analysis, research and refinement

Keyword match type strategy analysis

Search query analysis

Quality score analysis

Search re-marketing

Display advertising

Display re-marketing

Ongoing text ad creation and testing

Landing page optimisation recommendations

Device analysis

Demographic targeting

Shopping campaigns

Monthly reporting, KPI and Goal review

Ad extension analysis

Conversion optimisation

Our Google Ads Management Process and Strategies

We run transparent campaigns that are results-driven. We are so confident that you will love our

Google Ads Services that we don't insist you sign up for any long-term contracts. Rather, we work on a month-to-month basis and let the results do the talking.

Our diligence, professionalism, and expertise are apparent from the moment we start working with you. At each step of the way, we work to ensure that your campaign is always producing results. To achieve this, all our campaigns follow some basic steps to design a perfectly tailored Google Ads campaign:

Getting to know your business

We start by understanding your business. What sets you apart from your competitors? By stepping through our Google Ads questionnaire we build up an understanding of what you want to achieve from running Google Ads campaigns

Understand your marketplace

It's easy to get traffic to a web page, but delivering visitors to your website who will engage with your content in the way you want them to is where we come in! Through extensive keyword and competitor research, we build up an understanding of the keywords we need to advertise on to reach your target audience.

Create winning campaigns

Armed with the information we need, we put our expertise into creating engaging Google Ads campaign that will drive measurable results.

Making every count click

Before we launch, we work with our technical team to ensure we are tracking all important interactions on a website. This allows us to analyse and report on engagement, facilitating us in making every click count.

More Leads & More Customers with Google Ads

At SWOT Digital, we have made the whole process as simple as possible. To get started, simply contact us today, and our team of Google Ads experts will have Google Ads campaigns running in no time!

Why wait when our Google Ads Management Service can start driving new leads and new customers today to your website today!

Common Google Ads Questions

What is Google Ads and why is it important for my business?

Google Ads is an online advertising platform by Google that allows businesses to create and display targeted ads across Google's search engine, partner websites, YouTube, and other networks to reach potential customers. It allows you to advertise in the moment someone is looking for the product and/or service you provide.

What to look for in a Google Ads Agency?

Look for an agency with proven experience that has delivered tangible results for their customers. Read an agency's case studies, ask for referrals and read testimonials.

How long does it take to see results from advertising on Google Ads

A key benefit of Google Ads, is you can see results quickly. Through ongoing hands-on Ads management and optimisation, you can expect results to improve over time.

How much does Google Ads Cost?

We work with clients with budgets ranging from €10 to €2000 per day. The actual budget needed will be dictated by the market (what other advertisers are doing and how competitive keywords are). You set a daily budget which you have complete control over. This means you are able to decrease, increase or stop ads at any time.

What are the benefits of Google Ads Management?

With over two decades of experience running Google Ads campaigns, we can bring the expertise you need to run effective Ads campaigns generating new leads and customers driving significant return on

investment

What Does SEO Include?

The core elements we use to boost online profiles and increase traffic numbers are:

Website Audit

This audit identifies any technical and content issues that are preventing your website from reaching the dizzy heights it deserves. Armed with this information, we work with you to implement fixes that both search engines and users will love.

Keyword Research

We start with the inside knowledge we gain from the client. Then our SEO experts use this and independent data sources to build a complete list of the search terms customers use. This ensures your webpage ticks all the right boxes when it comes to keywords.

On Page Optimisation

We use extensive A/B testing and ongoing improvements to make sure your webpage achieves the perfect balance that hits all the right notes with users and search engines alike. Every element of your webpage is optimised to provide high conversion rates and high page ranking – The perfect blend.

Content Creation

High-quality, relevant, engaging, and regular content is a sure-fire way to increase visitor numbers. Our team of copywriters are the best in the business at understanding a client's niche and creating killer content that search engines love.

Link Building

Using ethical and innovative link building techniques, we build links from high-quality and relevant websites that significantly enhance a website's trust and authority metrics. Our SEO team are experts at making sure every link we build is chosen to enhance a website's online credibility.

Monthly Reporting

We provide exhaustive monthly reports so that our clients can see the benefits of all our hard work. We do this using personalised Google Data Studio reports that pull data from all relevant sources to paint a complete picture of the performance of your website.

Common SEO Questions

How long does SEO take to work?

The simple answer is Yes – by improving your organic rankings in major search engines for business critical keywords you will increase your visibility and traffic for people looking for your products & services.

How long should I do SEO for?

Dublin's Leading SEO Company with Expert SEO Consultants

I agree to Privacy Policy by submitting this form.

Our SEO Expertise

At SWOT Digital, our SEO expertise is the culmination of years of experience and success in the digital marketing field. Our SEO team is composed of industry experts who are passionate about delivering innovative SEO solutions that drive results and enhance your online presence.

SEO That Delivers Results

We believe in SEO that not only promises but also delivers. With a keen focus on the Dublin market, our strategies are designed to improve your search rankings, increase website traffic, and convert visitors into loyal customers.

How Our SEO Agency Can Help Your Business Growth

In the bustling digital marketplace of Dublin, SWOT Digital serves as a beacon of growth for businesses seeking to enhance their online presence. Here's how our agency can help your business not just grow, but thrive:

Customised Growth Strategy

At SWOT Digital, we understand that every Dublin business is unique. We craft customised SEO strategies that align with your specific business goals, industry nuances, and the competitive Dublin landscape. Our personalised approach ensures that your SEO efforts are not only effective but also relevant to your business model and growth aspirations.

Visibility in Dublin's Market

With our specialised knowledge of the Dublin market, we optimise your website to rank higher for local search queries. Increased visibility in search results means more Dubliners find your business online,

leading to greater brand recognition and local dominance.

Traffic That Converts

More traffic doesn't always equal more business. We focus on attracting high-quality, targeted traffic to your website—potential customers in Dublin who are actively searching for your products or services. This leads to higher conversion rates and more sales.

Sustainable Long-Term Growth

SEO is an investment in your business's future. Unlike paid advertising, the benefits of SEO don't stop the moment you pause a campaign. We build a strong foundation for your website that continues to drive growth over time, ensuring sustainable success for your Dublin business.

Competitive Edge

In a competitive city like Dublin, standing out is critical. We keep you ahead of the curve by implementing the latest SEO techniques and trends, helping you outperform competitors and capture a larger share of the market.

Measurable Results and ROI

Every business investment needs to show a return, and SEO is no different. We provide clear, measurable results that demonstrate the effectiveness of your SEO campaigns. With detailed analytics and reporting, you can see the direct impact of our work on your Dublin business's bottom line.

Ongoing Optimisation

The digital landscape is ever-evolving, and so are our SEO strategies. We continually refine and optimise our approach to stay in line with Google's algorithms and the changing behaviours of Dublin consumers, ensuring your business continues to grow and adapt in the digital age.

Explore our SEO Service

Odyssey Bathrooms

28% increase in click through rate

12% fall in cost per click

Decreased cost per click by more than 100%

26% increase in CTR

How SEO works in practice

SEO is not just a set of techniques; it's a strategic process that involves several stages. Here's how we at Swot Digital apply our SEO expertise to deliver tangible results for your Dublin business:

Our process begins with an in-depth audit of your website. This audit is a crucial step, as it lays the groundwork for all future SEO efforts. We examine technical aspects of your site, the quality of content, user experience, and existing backlink profile. This comprehensive evaluation helps us identify opportunities and barriers to your online success in Dublin.

With the insights gathered from the audit, we move to the planning stage. Here, we establish SEO goals that align with your overall business objectives. We then develop a bespoke strategy, selecting the most effective tactics for your specific Dublin market.

Our planning phase includes:

Keyword strategy development to target Dublin audiences

Site structure optimisation for better user experience and crawlability

Content planning to address gaps and opportunities identified in the audit

Execution is where strategies are put into action. This includes applying on-page optimisation, enhancing site speed, creating high-quality content, and building authoritative links. Our execution phase is methodical and data-driven, ensuring each step is calculated to make the most significant impact on your Dublin business's online presence.

SEO is not a set-and-forget endeavour. Continuous monitoring is vital to understand how the implemented strategies are performing. We use advanced analytics to track changes in rankings, traffic patterns, and user behaviour. By keeping a close eye on these metrics, we can make data-informed decisions to further optimise your SEO campaigns.

Transparency is key to our client relationships. We provide detailed reports that break down the performance of your SEO strategy. These reports give you a clear picture of the value we're delivering, with insights into metrics such as keyword ranking improvements, organic traffic growth, and conversion rates. Our reports also include recommendations for ongoing strategy adjustments to keep improving your SEO results in Dublin.

TESTIMONIALS

What our customers say about us

Common SEO Questions

What is SEO and why is it important for my business?

SEO, or Search Engine Optimisation, is the process of optimising your website to rank higher in search engine results, making it crucial for increasing online visibility and attracting more business in Dublin.

What to look for in an SEO Agency?

Look for an agency with proven results, a clear strategy, transparency, and a deep understanding of your industry and local market in Dublin.

How long does it take to see results from SEO in Dublin?

SEO results can vary, but typically, you may start to see noticeable improvements within 3-6 months of implementing a solid SEO strategy.

How much does SEO cost in Dublin?

The cost of SEO services in Dublin can vary based on the scope and scale of your project. It's best to

discuss your needs with an agency like SWOT Digital for a tailored quote.

What are the benefits of an SEO Service in Dublin?

Benefits include increased visibility in local search results, higher organic traffic, improved brand awareness, and a better ROI compared to traditional advertising methods.

TESTIMONIALS

What our customers says about us

There's no better advocate for our work than our clients themselves. In our testimonials section, Limerick businesses share their stories of growth and success, attesting to the quality and impact of our SEO service.

Common SEO Questions

What makes SWOT Digital's SEO service right for my Limerick business?

Our SEO solutions are specifically crafted with Limerick's market in mind, ensuring that your business's digital strategy is optimised for local relevance and performance.

How will SEO benefit my business in Limerick?

SEO can dramatically improve your business's online visibility in Limerick, attracting more local traffic, increasing engagement, and driving higher conversion rates, which all contribute to business growth.

How does SWOT Digital keep up with the ever-evolving world of SEO?

We're committed to continuous learning and adaptation. Our team is always on the pulse of the latest SEO trends and algorithm changes to ensure your strategy remains effective and forward-looking.

Does SWOT Digital offer both local and national SEO?

Absolutely. Whether you're looking to dominate the Limerick market or expand your reach across Ireland, our SEO strategies are designed to scale with your ambitions.

What is the first step to begin SEO service with SWOT Digital in Limerick?

Reach out for a free consultation where we'll discuss your goals, evaluate your current SEO state, and start crafting a strategy that's tailored to your Limerick business.

When can I expect to see results from SEO?

SEO is a marathon, not a sprint, but you can often see initial results within 3-6 months, with more significant impacts accumulating over time.

Which types of businesses does SWOT Digital work with in Limerick?

We serve a diverse clientele, from startups and local businesses to multinational corporations, across a variety of industries in Limerick.

How does SWOT Digital track and report the success of SEO campaigns?

Success is measured using key performance indicators like search rankings, website traffic, and conversion rates. We provide detailed reports to show progress and adjust strategies as needed.

TESTIMONIALS

What our customers says about us

The testimonials from our Galway clients speak volumes about the success and satisfaction they've experienced through our SEO service, underscoring our commitment to delivering excellence in the digital marketing realm.

Common SEO Questions

What sets SWOT Digital's SEO service apart for businesses in Galway?

SWOT Digital's SEO service is uniquely tailored for Galway, combining our deep understanding of the local market dynamics with cutting-edge SEO strategies. This ensures that your business not only ranks well but also connects meaningfully with the Galway audience.

How can my business in Galway benefit from SEO?

SEO can significantly enhance your business's online presence in Galway, leading to increased website traffic, higher search engine rankings, and improved engagement with local customers, which ultimately drives sales and growth.

How does SWOT Digital adapt to the ever-changing SEO landscape?

We continuously monitor and adapt to the latest SEO trends and algorithm changes, ensuring that your Galway business's SEO strategy remains effective and ahead of the curve.

Can SWOT Digital handle my business's SEO needs both locally in Galway and nationally?

Absolutely. Whether you're looking to dominate the Limerick market or expand your reach across Ireland, our SEO strategies are designed to scale with your ambitions.

What is the initial process for starting SEO service with SWOT Digital in Galway?

The process begins with a free, no-obligation consultation where we discuss your business objectives, analyze your current SEO status, and propose a tailored strategy to meet your specific needs in Galway.

How long does it typically take to see results from SEO in Galway?

SEO is a long-term strategy, but most clients start to see noticeable improvements in their online presence within 3-6 months of implementing our SEO techniques.

What types of businesses does SWOT Digital work with within Galway?

We work with a diverse range of businesses in Galway, from small local startups to large corporations, across various industries, tailoring our SEO strategies to each business's unique needs.

How does SWOT Digital measure and report the success of an SEO campaign?

We use a variety of metrics, such as keyword rankings, website traffic, engagement rates, and conversion rates, to measure the success of your SEO campaign. We provide detailed, transparent reports to our clients, ensuring they are informed about the progress and results.

TESTIMONIALS

What our customers says about us

Nothing speaks louder than the words of our clients. In our testimonials section, you'll read first-hand accounts of how SWOT Digital has helped businesses in Cork thrive online, building a reputation for excellence in the SEO field.

Common SEO Questions

What makes Swot Digital's approach to SEO unique?

SWOT Digital prides itself on a bespoke approach, where strategies are not just applied, but artfully woven into the fabric of your business's online presence. Our deep understanding of Cork's market nuances ensures that our SEO solutions are not only effective but also uniquely yours.

How long does it typically take to see results from SEO?

While SEO is a long-term strategy, most clients begin to see meaningful progress within 3-6 months.

The timeline can vary based on factors like the competitiveness of your industry and the current state of your website.

Can I measure the ROI of my investment in SEO?

Absolutely. We use a suite of analytical tools to track the performance of our SEO efforts, from improved rankings and traffic to conversions. Our monthly reports provide a transparent view of your SEO investment's return.

Is SEO suitable for small businesses in Cork?

SEO is vital for businesses of all sizes. For small businesses, it levels the playing field, allowing you to compete with larger companies by making you visible to the right audience at the right time.

What kind of businesses can benefit from SEO?

Any business aiming to increase its online presence can benefit from SEO. Whether you're in retail, services, or B2B, a well-executed SEO strategy can significantly improve your visibility and attract more customers.

Does Swot Digital offer a local SEO service for targeting the Cork area?

Yes, local SEO is one of our specialties. We ensure your business is optimised for local searches, helping you connect with customers in and around Cork.

What if I'm new to SEO? Will I be able to understand the processes and strategies?

We strive to demystify SEO for our clients. Our team will walk you through every step of the process, ensuring you understand and are comfortable with the strategies we implement.

From concept to launch – making your business website shine on any device.

I agree to Privacy Policy by submitting this form.

At SWOT Digital, we look after every aspect of your web design and ensure it performs brilliantly straight out of the starting block.

The result is not just a stunning looking website, but one that performs as well as it looks!

We believe that beauty is more than skin deep, that's why all our websites are designed with SEO incorporated from the foundations up, and speed of performance is considered at every step of the way.

Responsive Design For The Modern World

These days a website has to both look fantastic and work perfectly on any platform.

Gone are the days when the desktop computer was king when it came to browsing the internet. Today, more than half of all web traffic comes through mobile devices.

At SWOT Digital, all of our websites are optimised to work on any device so, no matter how your visitor is viewing your page, it looks and performs brilliantly.

What this translates to is a web page that is optimised to provide a user experience that drives up enquiries and sales, regardless of how it was accessed.

Contact us today to find out how a responsive website can help your business.

Speed Matters!

Speed is at the forefront of our design process. At every stage of the process, we design each element to ensure that your webpage loads like lightning!

This is great for the user experience, as fast load times keep all those short attention spans from heading off to the competition. But this is not the only reason speed matters!

Google now uses speed metrics that test how fast content loads. And faster load times equates to a higher page ranking!

Our specialised WordPress hosting and optimised design ensure that your web page will get an A-rating on technical speed tests.

Contact us today to find out more about how putting some zoom into your website can be your fast-track to success.

Benefits Of Our Website Design

We are market leaders in innovative website design that is optimised to work in today's marketplace.

Backed by years of experience at the cutting edge of web technology, our design team can build a website that not only looks fantastic but also incorporates the following benefits:

Fully responsive

All our websites perform on any platform or device, including PCs, phones, and tablets.

Speed is crucial to maintain visitor interest and Google rankings, our websites tick all the boxes when it comes to speed.

Out of the box, our websites are designed with Search Engine Optimisation in mind. Both the content and the layout are designed to be SEO friendly.

Don't Just Take Our Word For It!

We are as proud of our work as our clients are of their websites!

We work with clients of all sizes, from small company brochure sites to large eCommerce platforms and everything in between and are happy to share some of these designs and the methodology behind them with you.

Email Marketing

Grow your business with powerful and highly targeted email marketing campaigns

I agree to Privacy Policy by submitting this form.

Email is one of the most effective marketing tools for modern businesses.

At SWOT Digital, we are highly experienced in creating and managing email marketing campaigns that get right to the heart of the matter – your customer's inboxes!

Our precisely targeted campaigns give your business a direct channel to the people that matter – consumers and customers that are precisely chosen to fit the demographic your business appeals to!

Why Choose SWOT Digital?

Experience counts!

At SWOT Digital, our dedicated teams of marketing professionals have years of experience in creating successful email marketing campaigns that have worked wonders for hundreds of businesses.

Our email marketing team will work with you every step of the way to ensure that your email campaign is the ideal shop window for your business and targets the perfect audience.

Let our team become your team and boost your business's online profile with an optimised email marketing campaign!

Contact us today to find out more about how an email marketing campaign can boost sales, grow your customer base, increase brand recognition, and build customer loyalty.

Benefits Of Using SWOT Digital For Email Marketing

By using our services to create an effective email marketing strategy, your business can unlock a host of benefits and achieve instant results.

Amongst the many benefits of email marketing are:

Cost-effective

Email marketing is a fantastic method of reaching thousands of potential customers for a great price.

Unlock the power of segmentation

We use audience segmentation to precisely target your campaign based on factors like purchase history, interests, age, location and more.

Strategy planning

An email campaign is only as good as its planning. Benefit from our experience with strategic planning built into the heart of your campaign.

Personalisation

Each campaign is tailored to fit the needs and goals of your business and to perfectly mirror your business's philosophy and character.

Optimisation and testing

Our advanced analytics and reporting means we can continually test and optimise the performance of your email marketing campaign.

Let's chat about your business

Contact us today to discover how our tailored services can take your online presence to the heights you've always imagined. Our customised packages mean that we have a solution for every business.

Brand Design

Building dynamic brand identities through design excellence

I agree to Privacy Policy by submitting this form.

Our passionate and skilled brand design team can make it happen.

A strong and impactful brand design is essential to help your business stand out from the crowd. At SWOT Digital, our brand design experts work with you to create a stunning brand identity that reflects the values and personality of your business.

More than logo.

Brand design means more than just having a logo. It is the essence of who you are, and it should be reflected in everything you do – Each aspect of your business should send a strong and consistent message with a tone that resonates with customers.

What's included in our Brand Design Services

Your brand image and strategy is a blend of many elements. In essence, it is a recipe that harmonises to display your brand and its ethos in a consistent form which resonates with consumers.

At SWOT Digital, we make sure your brand is all about you and your values – To achieve this, we include:

Brand Identity

A strong brand identity is essential for your business to stand out from its competitors. Our brand design experts work with you to build the elements that will form the foundation of your brand identity. From logos to a mission statement, we will build the identity your business deserves.

Market Positioning

For any brand to succeed, it must understand the target market and its positioning within it. Our branding experts will make sure you set off on the right path by laying the groundwork to ensure your business is recognised as an authoritative brand that appeals to the right demographics.

Consistency

A strong brand identity is all about consistency. To achieve this, we will not only ensure that all channels are included in your brand design, but we will also create the guidelines needed to maintain consistency across your entire business.

Relevance is key to branding – Not just now but into the future too! We build your brand identity with one eye on the future so that as the world changes, your brand retains its relevance and remains at the forefront of consumers' minds.

It's the way we tell your story!

We ensure that your brand identity works for your business and tells your story! Our approach is customer-focused and designed to present you with a brand identity that is unique and truly represents who you are.

To achieve this, we take a strategic and multi-stepped approach that includes the following elements:

Comprehensive brand analysis

We start by thoroughly researching the market you operate in. We get to know the key demographics of your customer and potential customer base, who your competition are and who they interact with.

Using this information, we can begin to sketch the picture that will become your brand identity.

Tailoring your brand

The next step is to understand your business and its mission and values. Whether you are a start-up looking to build a brand identity from new or an existing company wanting to rebrand, this approach ensures that we craft a brand identity to be proud of!

Once we understand your business and its message, our design team works its magic. We take our sketch from earlier and turn it into a masterpiece of brand design.

This highly tailored approach means that your brand will be shaped to perfectly reflect the personality of your business and makes sure it stands head and shoulders above your competition.

We worked on these brands!

About SWOT Digital

With offices in Dublin, Limerick and the UK, Swot have been helping businesses of all sizes build a successful digital presence for 15 years. We are a market-leading, results-driven business with dedicated teams that love their work!

We use experience, innovation, and passion to deliver results that have boosted the web presence of both Irish and international companies. All are delivered with a customer focus that is second-to-none. A wealth of skills and experience from many digital disciplines.

When not working you will find me either training for a marathon (2 done so far), watching Rugby & Football or winning victory royale's during the week playing Fortnite with my two daughters.

Chris Wanger

Many moons ago, Chris read for a Zoology degree, cycled from the UK to India and ended up acting in a Bollywood Film. He likes to endlessly bore people with that. Now, in his free time, he likes to play golf and support Shelbourne Football Club.

Social Media Manager

Bruno Grandis

When he's not sitting in front of a computer planning and creating content for our clients, he is most likely playing great video games or watching really bad movies.

SEO Manager

Paulo Andrade

Outside of work, he enjoys playing basketball (nobody's perfect), long walks in the countryside, and is an enthusiastic and long-suffering fan of his local football team.

PPC Manager

Dusan Vostinic

SEO Manager

Smilja Pjesivac

UX Designer

Marko Mutavdzic

In his free time, when he's not at the computer, you can see him on the theater scene, in music videos, commercials and movies. He also loves tennis, skiing, swimming, and working out at the gym.

Web Developer

Vladimir Karaicic

Most of my work has been done on various interesting projects in cooperation with small and medium-sized local businesses and companies.

He spends his free time with family and friends and taking part in sports like competitive swimming. In the future he plans to become a full-stack developer and travel the world.

Tailored Digital Marketing Solutions

At SWOT Digital, we believe in building partnerships with our clients. We understand that every business is different; each has its own philosophy and character and unique goals and vision.

We start by understanding this and understanding your customers too! We then build a tailored digital solution that reflects your business and what it stands for perfectly.

Whether you are looking for improved visitor and sales numbers from your existing site, or a complete digital strategy from the ground up, we can customise the perfect solution.

Google Partners

Our business is making sure that your online business thrives.

We are accredited Google Partners, which helps to ensure that the ads we run will drive thousands of new clients to our client's websites. We have perfected the art of Google Ads management, and our ad campaigns have enthralled millions of people and generated millions of Euros in sales.

Why not contact us and find out how our tailored and highly targeted Google Ad campaigns can help your business.

Why Choose SWOT Digital?

We are so sure you will love the work we do that we never sign clients up for long-term contracts.

Rather we prefer to let the numbers do the talking and work with clients on a month-to-month basis.

This helps to keep us hungry and the customer happy!

We measure our success by our customer's success. And we love to boast about it! To this end, we offer a completely transparent service with full analytics so you can see exactly how the magic we weave has boosted your visitor figures.

By using SWOT Digital, you have a team on your side that brings passion, enthusiasm, diligence, and expertise to boost your digital channels.

Client Success Stories

We don't just talk about results — we deliver them.

Our clients have seen incredible growth, from increased traffic and enhanced online visibility to higher sales. Don't just take our word for it — hear directly from those who have experienced the transformation firsthand:

We have been using SWOT for a few years now. SWOT Digital is a fantastic agency that has greatly helped our business grow. Their expertise in SEO and Google Ads is outstanding. They have boosted our website's visibility, increased organic traffic, and improved our ad campaigns. The team is professional, collaborative, and transparent, providing excellent support throughout. We highly recommend SWOT Digital for anyone looking to excel in the digital landscape. Thank you, SWOT Digital, for your invaluable contributions to our success!

Plastic Solutions

We have engaged SWOT Digital to look after our online presence and SEO for over 10 years and recently they took on the project to completely overhaul our website at All Financials.

We couldn't be happier with the results, the feedback we are getting and the leads it is producing.

Based on our experience we couldn't recommend SWOT Digital highly enough!

All Financials

We were recommended to SWOT Digital by another company to look after our Digital Marketing. Since retaining them, they have managed both our SEO and Google AdWords campaigns.

Their attentive, hands on approach has made a real difference and we have seen improvements across the board. If you want to take your Digital Marketing to the next level, talk to the guys in SWOT Digital.

Bringing Creativity and Expertise Together

Your Questions Answered

How can I get in touch with SWOT Digital?

You can contact us by filling out the form on this page, calling us, or sending an email. We aim to respond to all enquiries as quickly as possible.

What services does SWOT Digital offer?

We offer Google Ads management, SEO services, social media advertising, web design, email marketing, and brand design. Our team helps businesses grow online through tailored strategies that drive traffic, engagement, and conversions. If you're unsure what service suits you best, reach out, and we'll help you figure it out.

Do you offer free consultations?

Yes! We provide a free initial consultation to discuss your business goals and how we can help. Get in touch to schedule yours.

Do you work with businesses outside Ireland?

Absolutely! While we're based in Ireland, we work with clients across the UK, Europe, and beyond.

Digital marketing has no borders!

What industries do you specialise in?

We work with businesses of all sizes across various industries, including eCommerce, finance, healthcare, construction, and more.

How soon can I expect a response after submitting the contact form?

We aim to reply to all enquiries within 24 hours during business days.

Testimonials

At SWOT Digital, we take pride in delivering real results for our clients. From improved search rankings to high-performing ad campaigns, our work speaks for itself. But don't just take our word for it—see what our clients have to say about their experience with us.

The team are excellent – knowledgeable and sensitive to our particular (sometimes even peculiar!) business attributes. They are great at explaining the relevance of some very technical aspects of their role and I think as a result we are building a comprehensive view of 'cause and effect' for our website. Most importantly, we are seeing a very steady increase in our traffic! Highly recommended.

We got a referral from a trusted source. The deciding factor was the level of service, the attention to detail; the openness and honesty of the principals and the availability, solution-orientated attitude. SWOT are amazing. We work in a difficult sector.. it moves quickly when it moves. SWOT stayed the pace. AMAZING BUSINESS.

Odyssey Bathrooms

I have dealt with a lot of different companies, and SWOT Digital knows what they are doing.

Since I started working with the team, I have seen my rankings on Google dramatically improve. Now, our online presence competes with bigger companies.

We were recommended to SWOT Digital by another company to look after our Digital Marketing. Since retaining them, they have managed both our SEO and Google AdWords campaigns.

Their attentive, hands on approach has made a real difference and we have seen improvements across the board. If you want to take your Digital Marketing to the next level, talk to the guys in SWOT Digital.

Cafe Brands

Great company to work with. They have an in depth knowledge of the workings of Google and over time has helped our company to identify the best locations and demographics to place our ads. I would highly recommend SWOT digital for any company that is serious about advertising with google.

We have been using SWOT for a few years now. They are a fantastic agency that has greatly helped our business grow. Their expertise in SEO and Google Ads is outstanding. They have boosted our website's visibility, increased organic traffic, and improved our ad campaigns. The team is professional, collaborative, and transparent, providing excellent support throughout. We highly recommend SWOT Digital for anyone looking to excel in the digital landscape. Thank you, SWOT Digital, for your invaluable contributions to our success!

We have seen significant growth in targeted keyword rankings, with key content pages ranking higher than our major competitors, like Google, Amazon and Microsoft. This has allowed us to reach our goal of being seen as a major player in this sector and a definite consideration alongside these major competitors.

C&S Roofing

My business has grown massively as a direct result of their work. We now have a professional website that ranks well on Google both through organic SEO efforts and paid ads. I'm also seeing an increase in leads converting to customers. The money we have spent with SWOT Digital Marketing Agency has generated a fantastic ROI.

SWOT have provided us with a excellent suite of services to help us optimise our online presence. Very responsive, high quality, knowledgeable and effective.

SQT Training

SQT Training have been working with SWOT Digital since last August and we cannot recommend them highly enough. Chris always answers emails promptly and turns around Google Ads quickly and efficiently. They also take the time to understand the business and tailor campaigns accordingly and tweak if necessary.

Let's chat about your business

Contact us today to discover how our tailored services can take your online presence to the heights you've always imagined. Our customised packages mean that we have a solution for every business.

We find SWOT to be professional

We find SWOT to be professional, efficient and reliable. Chris's expertise and knowledge is a great asset to have in the background. Brendan owner at TEROOCO Windows and Doors Ltd

Date of experience: February 27, 2020

I have worked with SWOT to improve our...

I have worked with SWOT to improve our online presence. I have found them extremely knowledgeable and very easy to work with. We immediately saw a significant increase in traffic to the website and Chris has been helpful in making improvements to the site itself. Their reporting system is easy to understand and facilitates constructive discussion regarding what direction to move. I would definitely recommend using SWOT for digital marketing

Date of experience: February 14, 2020

Listened to and understood the brief...

Listened to and understood the brief exactly. Communicated with relevant issues/questions. We have seen our business increase as a direct result of the on going campaign we run with Swot Digital.

Date of experience: February 12, 2020

The guys at SWOT are extremely...

The guys at SWOT are extremely friendly, reliable and efficient, we are happy to have them on our team. Onwards and upwards!

Date of experience: February 12, 2020

Top people to collaborate with.

I've used SWOT Digital a few times and get nothing but the very best. Services I've accessed include SEO and website development. The team are down to earth and great fun, but most importantly, hard working, on time and brilliantly skilled. I am based in England and they are in Ireland, but it doesn't stop superb collaborations. I wouldn't hesitate recommending these guys.

Date of experience: February 12, 2020

Excellent to work with and great value...

Excellent to work with and great value for money. SWOT Digital have transformed our Google Ads strategy and implementation. Our new website was designed by SWOT. The SWOT team helped us build a site that is based around improving the customer journey and we are extremely happy with the end result

Date of experience: February 11, 2020

Our most responsive supplier.

Our most responsive supplier. They continually demonstrate great expertise and practical suggestions. Overall I'd say they go above and beyond to influence our traffic - even taking on some tasks which we should really do ourselves.

Date of experience: February 11, 2020

The Trustpilot Experience

We're open to all

Anyone can write a Trustpilot review. People who write reviews have ownership to edit or delete them at any time, and they'll be displayed as long as an account is active.

We champion verified reviews

Companies can ask for reviews via automatic invitations. Labeled Verified, they're about genuine experiences. Learn more about other kinds of reviews.

We fight fake reviews

We use dedicated people and clever technology to safeguard our platform. Find out how we combat fake reviews.

We show the latest reviews

Learn about Trustpilot's review process.

We encourage constructive feedback

Here are 8 tips for writing great reviews.

We verify reviewers

Verification can help ensure real people are writing the reviews you read on Trustpilot.

We advocate against bias

Offering incentives for reviews or asking for them selectively can bias the TrustScore, which goes against our guidelines.

Privacy policy

What we collect

This Privacy Policy sets out how SWOT Digital Limited uses and protects any information that you provide when you use this website. SWOT Digital Limited is committed to ensuring that your privacy is protected. Should we ask you to provide certain information by which you can be identified when using this website, then you can be assured that it will only be used in accordance with this privacy statement. SWOT Digital Limited may change this statement from time to time by updating this page. You should check this page from time to time to ensure that you are happy with any changes. This statement is effective from 1 March 2012.

What We Collect

We may collect the following information:

- name and job title
- contact information including email address
- demographic information such as post code, preferences and interests
- other information relevant to customer surveys and/or offers

What We Do With The Information We Gather

We require this information to understand your needs and provide you with a better service, and in particular for the following reasons:

Internal Record Keeping

We may use the information to improve our products and services.

We may periodically send promotional email about new products, special offers or other information which we think you may find interesting using the email address which you have provided.

From time to time, we may also use your information to contact you for market research purposes. We may contact you by email, phone, fax or mail.

We may use the information to customise the website according to your interests.

Information Security

We are committed to ensuring that your information is secure. In order to prevent unauthorised access or disclosure we have put in place suitable physical, electronic and managerial procedures to safeguard and secure the information we collect online.

How We Use Cookies

A cookie is a small file which asks permission to be placed on your computer's hard drive. Once you agree, the file is added and the cookie helps analyse web traffic or lets you know when you visit a particular site. Cookies allow web applications to respond to you as an individual. The web application can tailor its operations to your needs, likes and dislikes by gathering and remembering information about your preferences.

We use traffic log cookies to identify which pages are being used. This helps us analyse data about web page traffic and improve our website in order to tailor it to customer needs. We only use this information for statistical analysis purposes and then the data is removed from the system.

Overall, cookies help us provide you with a better website, by enabling us to monitor which pages you find useful and which you do not. A cookie in no way gives us access to your computer or any information about you, other than the data you choose to share with us.

You can choose to accept or decline cookies. Most web browsers automatically accept cookies, but you can usually modify your browser setting to decline cookies if you prefer. This may prevent you from taking full advantage of the website.

Links To Other Websites

Our website may contain links to enable you to visit other websites of interest easily. However, once you have used these links to leave our site, you should note that we do not have any control over that other website. Therefore, we cannot be responsible for the protection and privacy of any information which you provide whilst visiting such sites and such sites are not governed by this privacy statement. You should exercise caution and look at the privacy statement applicable to the website in question.

Controlling Your Personal Information

You may choose to restrict the collection or use of your personal information in the following ways:

- Whenever you are asked to fill in a form on the website, look for the box that you can click to indicate that you do not want the information to be used by anybody for direct marketing purposes
- If you have previously agreed to us using your personal information for direct marketing purposes, you may change your mind at any time by writing to or emailing us at

We will not sell, distribute or lease your personal information to third parties unless we have your permission or are required by law. We may use your personal information to send you promotional information about third parties which we think you may find interesting if you tell us that you wish this to happen.

You may request details of personal information which we hold about you under the Data Protection Act 1998. A small fee will be payable. If you would like a copy of the information held on you please write to

SWOT Digital Limited, Harcourt Centre, Block 4, Regus House, Harcourt Road, Dublin 2.

Microsoft Ads Clarity vs. GA4: The Smarter, Simpler Way to Track User Behaviour

Let's be honest—GA4 can be a headache. The setup is confusing, the event-based tracking model takes time to get used to, and for many, it's a far cry from the simplicity of Universal Analytics. If you've ever felt frustrated trying to make sense of it all, you're not alone.

The good news? There's an easier, more visual way to track user behaviour—Microsoft Ads Clarity.

What is Microsoft Ads Clarity?

If you haven't come across it yet, Microsoft Ads Clarity is a free website analytics tool designed to help you understand exactly how visitors interact with your site. Think of it as your behind-the-scenes detective, showing you what users are clicking on, where they're getting stuck, and what's keeping them engaged.

With features like heatmaps, session recordings, and advanced filtering, Clarity gives you a clear, visual view of what's happening on your site—without the steep learning curve. No complex setups, no endless digging through reports—just straightforward insights that help you improve user experience and boost conversions.

And the best part? It's actually easy to use. Whether you're new to analytics or a seasoned marketer, Clarity keeps things simple while delivering powerful data.

So, how does it compare to GA4? Let's break it down.

1. Simplicity at Its Best

Opening GA4 for the first time can feel like stepping into a science lab—events, parameters, and endless custom configurations staring back at you. If you're not a data expert, it's easy to feel overwhelmed, like you need a PhD just to get started.

And you're not alone. GA4's usability issues have been a major talking point among marketers. A MarTech article highlighted how social media has been flooded with complaints about GA4's interface, with usability concerns taking centre stage.

Microsoft Ads Clarity takes a different approach. It keeps things simple, focusing on what really matters—understanding your website visitors without the headaches.

With an intuitive interface and easy-to-use features, Clarity makes navigation effortless. No more pulling your hair out over complex event tracking or confusing setup processes. Just plug it in and let it do the heavy lifting—no steep learning curve required.

If you're tired of spending hours trying to make sense of GA4, Clarity might just be the stress-free solution you've been looking for.

2. Heatmaps: See Where the Action Is

Heatmaps are one of Clarity's standout features. Want to know where users are clicking the most?

Where are they spending the most time? Microsoft Ads Clarity gives you a colour-coded, easy-to-read map of your website's activity—no guesswork, just clear insights.

It's like having a hotspot map of your site, instantly showing what grabs attention and what gets ignored. With this data, you can optimise call-to-action buttons, tweak layouts, and ensure users are getting the best experience possible.

Microsoft Ads Clarity offers four types of heatmaps to provide detailed insights:

Click Heatmaps – Shows all clicks, dead clicks (where nothing happens), rage clicks (repeated clicks in frustration), error clicks (before JavaScript errors), first clicks (initial user actions), and last clicks (final user actions).

Scroll Heatmaps – Displays how far users scroll down the page.

Attention Heatmaps – Highlights the areas where users spend the most time.

Area Heatmaps – Aggregates total clicks within a chosen section of the page.

And the results speak for themselves. In a case study featuring Scrape.do, the company used Clarity's heatmaps and session recordings to pinpoint user drop-off points and improve their website experience. The result? A 28% increase in trial sign-ups and a 12% boost in conversions from paid ads.

With GA4, you're left sifting through raw data, trying to piece everything together. Clarity, on the other hand, lays it all out visually—so you can make smarter decisions, faster.

3. Session Recordings: Watch User Behavior Live

Session recordings are another game-changing feature of Microsoft Ads Clarity. You can watch real-time recordings of how visitors interact with your site—almost like looking over their shoulder. Ever wondered why people abandon their carts? Instead of guessing, you can see exactly where they get stuck and fix it.

Take checkout abandonment, for example. Research from the Baymard Institute found that during the first three months of 2024, 22% of US online shoppers abandoned an order because the checkout process was too long or complicated.

And the impact is real. In a case study featuring Felix & Norton, they reduced checkout abandonment by 25% and increased their conversion rate by 38% during peak gifting season—all by using Clarity to refine their checkout experience. A few small adjustments based on real user behaviour made a massive difference.

GA4 doesn't offer session recordings natively, so you'd need third-party tools (and extra costs) to get the same insights.

With Clarity, you're not just collecting data—you're making real improvements that help users complete their journey and drive more sales.

4. Advanced Filtering for a Laser-Focused View

Tired of struggling with complicated data filters? Microsoft Ads Clarity makes it easy. Need to segment by device type? Page URL? Custom criteria? No problem. Clarity makes it easy to drill down into user behaviour and find exactly what you need—without the hassle.

This level of precision helps you spot real patterns in visitor behaviour so you can tweak your website or campaigns with confidence. GA4 offers segmentation too, but getting the insights you actually need often takes extra setup and way more effort—sometimes it feels like searching for a needle in a haystack.

5. Privacy-Friendly by Design

With growing concerns around data privacy, businesses need analytics tools that prioritise compliance without sacrificing insights. Microsoft Ads Clarity is built with GDPR and other privacy regulations in mind, ensuring you can track user behaviour without collecting personally identifiable information (PII) or facing legal headaches.

Privacy isn't just a nice-to-have—it's a business necessity. A 2023 study by Cisco found that 95% of organisations see privacy as a business imperative, and 94% believe their customers wouldn't buy from

them if data wasn't properly protected.

6. Free Forever? Yes, Please!

What makes Microsoft Ads Clarity different? It's completely free—no hidden fees, no paywalls, and no pricey upgrades needed to unlock essential insights.

GA4 is also free, but there's a catch. To get the most out of it, you often need extra tools and integrations, which can mean additional costs. And as your site traffic grows, GA4's data sampling can lead to reporting inaccuracies—something you don't have to worry about with Clarity.

If you're overwhelmed by Ga4, then it may be time for a change and get some [Microsoft] Clarity

There's no denying that GA4 is a powerful analytics tool, but it's not exactly known for being user-friendly. If you're looking for something more intuitive, visually rich, and easy to use, Microsoft Ads Clarity is a solid alternative.

With heatmaps, session recordings, and advanced filtering, Clarity gives you a clear picture of how visitors interact with your site—without the complexity and steep learning curve of GA4. And did we mention it's free?

If GA4 feels overwhelming, why not give Clarity a try? It might be exactly what you've been looking for. Happy tracking!

SEO Tips for E-commerce Websites: A Complete Guide

Search engine optimisation (SEO) is crucial for e-commerce websites to attract organic traffic, improve visibility, and drive sales. Unlike other websites, e-commerce platforms need a strategic approach to SEO due to their large number of product pages, dynamic content, and competitive nature. This guide covers essential SEO tips to optimise your e-commerce store and improve rankings.

Ensure All Important Pages Are Indexable

Google needs to access and index all the pages you want to rank. To ensure this:

Avoid orphan pages (pages with no internal links leading to them).

Submit an XML sitemap to Google Search Console.

Use a robots.txt file carefully to block unwanted pages while allowing important ones.

Regularly check for crawl errors in Google Search Console.

Technical Infrastructure: Building a Solid Foundation

Speed and Performance Optimisation

Your e-commerce site's loading speed directly impacts user experience and search rankings. Modern consumers expect instant gratification – if your pages don't load fast, you risk losing potential customers. Implement these crucial optimisations:

Optimise image sizes without compromising quality

Utilise browser caching effectively

Minimise server response time

Enable compression for faster data transfer

Implement Content Delivery Networks (CDNs) for global audiences

Mobile-First Approach

With mobile commerce continuing to grow, ensuring your e-commerce site performs well on mobile devices is crucial. Focus on responsive design that adapts seamlessly across all screen sizes while maintaining functionality and user experience.

Strategic Navigation and Site Architecture

Effective URL Structure

Create clean, logical URL structures that reflect your site's hierarchy. For example:

`yourdomain.com/category/subcategory/product-name/`

This approach helps search engines understand your site's organisation and makes it easier for users to navigate and remember product locations.

Pagination vs. Infinite Scroll

While infinite scroll might seem user-friendly, it can create significant SEO challenges. Instead, implement proper pagination with clear navigation controls. This approach offers several advantages:

Better crawler accessibility

Improved page load times

Enhanced user control over navigation

A clear indication of content location

Internal Linking Strategy

Develop a logical internal linking structure that:

Distributes page authority throughout your site

Highlights important products and categories

Creates clear pathways for both users and search engines

Reduces the number of clicks needed to reach any product

Conduct Thorough Keyword Research

Keyword research forms the foundation of your e-commerce SEO strategy. Follow these steps:

Identify keywords with high search volume and commercial intent.

Use tools like Ahrefs, SEMrush, or similar.

Optimise for transactional keywords rather than informational ones.

Optimise Product and Category Pages

Each category and product page should be optimised for both users and search engines:

Title Tags: Include product name, brand, model, and key attributes

Meta Descriptions: Create compelling descriptions with keywords and a call to action.

Product Descriptions: Write unique, keyword-rich descriptions instead of using manufacturer-provided text.

Images: Use high-quality images with descriptive alt text.

Customer Reviews: Encourage and display product reviews, which enhance credibility and add fresh content.

Educational Content Integration

Develop comprehensive content that supports your products:

Buying guides

How-to articles

Comparison guides

Maintenance tips

Industry news and trends

This content helps with SEO, establishes your authority in the market, and supports customer decision-making.

Advanced Technical Optimisation

Schema Markup Implementation

Implement appropriate schema markup to help search engines understand your content better:

Product schema for individual items

Review schema for customer feedback

Price schema for current pricing

Availability schema for stock status

Breadcrumb schema to enhance navigation in SERPs.

Crawl Budget Optimisation

Manage your crawl budget effectively by:

Using robots.txt strategically

Implementing proper canonical tags

Managing faceted navigation

Controlling parameter handling

Optimising XML sitemaps

Optimise Pagination with NOINDEX, FOLLOW

For category pages with multiple pagination levels:

Use NOINDEX, FOLLOW for pages beyond the first to prevent Google from wasting the crawl budget on less valuable pages.

Ensure essential products appear on the first page for maximum exposure.

Display Key Product Snippets at the Category Level

To improve user experience and click-through rates, showcase key product details on category pages:

Display price, stock availability, and primary features.

Include call-to-action buttons for easy navigation.

Use structured data to enhance snippet visibility in search results.

Make All Products Accessible Without Dynamic Routes

Google favours clear and structured navigation over dynamically generated URLs. Ensure:

Product pages are reachable via static URLs.

Navigation relies on standard <a href> links instead of JavaScript-based clicks.

All products are linked through category pages or an HTML sitemap.

Promote Best-Selling Products and Categories

Highlighting your top products can boost visibility:

Feature bestsellers on the homepage.

Internally link to them from category pages, blog posts, and promotional pages.

Optimise product page titles and descriptions for maximum impact.

Successful e-commerce SEO requires a balanced approach that combines technical excellence with user-focused content and functionality. By implementing these strategies while maintaining focus on user experience, your online store can achieve better visibility and sustainable growth in organic search results.

Remember that SEO is an ongoing process, not a one-time task. Regular monitoring, testing, and optimisation are essential for maintaining and improving your search engine rankings in the competitive e-commerce landscape.

Not sure where your e-commerce site stands in terms of SEO? Contact us for a consultation and discover how we can help maximise your store's search visibility and drive sustainable growth.

Is Your Business Losing Google Reviews? Here's What You Need to Know

If you've recently noticed a sudden drop in your Google reviews, you're not alone. Businesses across various industries are reporting missing reviews, and it's not just a coincidence. Google has recently made changes that are impacting local business reviews, causing confusion and concern among business owners.

What's Happening with Google Reviews?

According to a report by SERoundtable, many businesses have experienced a noticeable decline in the number of their Google reviews. This shift appears to be linked to Google's latest updates, which aim to improve the quality and authenticity of reviews on its platform. However, these changes have inadvertently affected legitimate reviews, causing frustration among business owners who rely heavily on these testimonials.

Why Are Google Reviews Important?

Google reviews are more than just feedback; they play a crucial role in:

Enhancing Local SEO: Reviews influence your local search rankings, making it easier for potential customers to find you.

Building Trust: Positive reviews boost your business's credibility, influencing purchasing decisions.

Driving Traffic: High ratings and frequent reviews attract more clicks and visits to your website.

How This Affects Your Business

A sudden drop in reviews can lead to:

Decreased Online Visibility: Fewer reviews may lower your ranking in local search results.

Loss of Customer Trust: Potential customers often rely on the volume and quality of reviews to make decisions.

Reduced Enquiries and Sales: A decline in visibility and trust can directly impact your bottom line.

What Can You Do About It?

If you're experiencing a decline in Google reviews, here are some steps you can take:

Audit Your Reviews: Check your Google Business Profile to identify missing reviews.

Encourage Fresh Reviews: Reach out to satisfied customers to leave new, authentic reviews.

Stay Informed: Keep up with Google's latest updates and best practices for managing reviews.

Contact Google Support: If you have screenshots of the reviews and/or the usernames of the people who left the review, reaching out to Google support can be an effective method to getting some of them reinstated.

Seek Expert Help: If the issue persists, consider consulting with a digital marketing expert who can help you navigate these changes.

Need Help with Your Online Visibility?

If your business is struggling with reduced visibility or declining website traffic, we're here to help. Our team specialises in improving online presence, recovering from search algorithm changes, and driving

more qualified traffic to your website.

Book a Free Consultation Call to discuss tailored strategies for your business.

Don't let these changes slow you down. Take proactive steps to protect and enhance your online reputation today!
